

## AMENDING THE ECO4 ORDER TO ALLOW COST RECOVERY VIA GRANT FUNDING CONSULTATION

### END FUEL POVERTY COALITION RESPONSE

5 January 2026

The End Fuel Poverty Coalition is a [broad coalition of more than 100 anti-poverty, health, housing and environmental campaigners, charities, local authorities, trade unions and consumer organisations](#). It is also supported by academics, social enterprises and those working on the front line of fighting fuel poverty.

The End Fuel Poverty Coalition does **not support** proposals to amend the ECO4 Order to allow additional cost recovery via grant funding at this time. Any move to reimburse energy suppliers for ECO4 activity without first resolving systemic failures in quality assurance, remediation and accountability would be inappropriate and risk further harm to fuel poor households.

If government is minded to ignore this opposition, the Coalition believes the following **minimum conditions** must be met first before making any additional payments to energy firms:

1. **Independent proof of quality before payment**

Energy suppliers should only be reimbursed for an ECO4 installation once it has been independently verified that every energy efficiency measure has been completed to a high and satisfactory standard.

2. **No payment for shoddy or harmful work**

DES NZ and Ofgem must make clear that payment will not be sanctioned for installations that cause or exacerbate damp, mould, ventilation problems or other harms to occupants.

3. **Remediation and redress resolved first**

A clear, fully funded national remediation programme must be in place for households affected by poor ECO4 installations, with costs recovered via installers / suppliers insurance policies.

We would be grateful if you could continue to keep the Coalition informed about developments in this consultation.
